which is then courser owes it to theelf as well as others "to correct and to denounce such infamous peblications." The grave affence of the Ecquirer, which is thus fraternally rebuked by the Courier, consists in earling that the Democrats of Campbell county adopted a strong popular soversignty platicounty adopted and soversignty was strong popular soversignty was strong popular soversignty was stored and significant lines of policy in thus stated by the Ecquirer: "In Campbell county, last year, the Democratic majority was three hardred and eighty five votes; this year it runs up to six houseful and story over compelled to rebuke his presumption, while they were personally sfreid to incar his displeasance. In Mayaville, where the Express, the Damocratic paper, sustained that Congressional district by two hundred and fifty majority, while it gave Buchanan, for President, a large majority." Having thus stated its premises, the Promise makes the following adaptation. the Enquirer makes the following deduction:

These apposite results are very eignificant. In connection with the overwhalming defeat the Opposition have sustained while riding the slave-code hooby, they afford conclusive evidence that the Democracy and the people of Kentneky are in fevor of Congressional non-intervention on alavery in the Territories, and opposed to that body sither protection. pressional non-intervention on slavery in the last House, is a candidate for re-election, and with the state of the protect candidate throughout the State and sensitic candidates throughout the State and between the state of t

Mr. Stavenson has, therefore, fallen off from his majority in the race preceding 1,107. This four the Cincinnati Enquirer is welcome to, as the reward of Abolition interference with the Democracy of Kantucky." Head 2d snarls the information that "Stevenson's majority in Campbell and Kanton counties, of which the Enquirer makes an especial boast, is less than it was in his race preceding the last. In 1855, he beat Rankin in Campbell county 663 votes, and at the late selection only lead Jones 553 votes Atd in Kenton county beat Jones 553 votes and it has been county beat Jones 553 votes in 1857, while be only beat Jones 553 votes in the late contest. Here then is a loss of 640 which the Abolition Equalitier can also set down to the credit of its treacherous Interference in these counties." This forms the first Cerberus of the Courier's kennel.

Head 4th maps the denial that "the Yeoman and the late is an appearance of credibility; but it cannot be true that our Administration has in any form assented to

Head 7th yells forth that "the vote for Holt in the Seventh District, where it is charged that the Courier's did harm, was larger than at any previous time. The difficulties in the way were that Mallory, the stright out and terrible interventionist, who was such o fire-anter, to the mind of the Enguirer, as to breakfast, dine, and any noon dissembly need to breakfast, dine, and any noon dissembly need to be case with the Democratic cognomen. The Jadga was defeated by such influences as the Ecquirer is an effective of the influence of the counties in which the Express."

And, finally, bad 8th bow-west the Ecquirer is an expression of the result.—Che. Times.

Warnther fear when the veil is alifted, we shall see the deformity of the veiled prophet, and we are enabled to assimate that "the whole abominable article of the Ecquirer is answered when we say that Magoffin was elected on a pretection platform, drawn up by himself; that Lina Boyd, a thorough protectionies on the State Lichet, was alected by the largest majority of any of our candidates; and that the next if one of Governor, remarking that he would discount in worth of her little the next in a proposition. And this forms the two-thirds of a Cerberns in the Courier's dogged raply to the Ecqui rec. And the Courier having, in its turn, stated its premises, gives its deductions also as follows:
